LOCAL REGISTRATION OF BIRTHS

Sec. 38-213. All births that occur in the state shall be immediately registered in the districts in which they occur, hereinafter provided.

Sec. 38-214. SAME: DUTIES OF THE PHYSICIANS AND MIDWIVES. It shall be the duty of the attending physician or midwife to file a certificate of birth, properly and completely filled out, giving all the particulars required by this article with the local registrar of the district in which the birth occurred, within 10 days after the date of birth; and if there be attending physician or midwife, then it shall be the duty of the father or mother of the child, nurse, householder, or owner of the premises, having knowledge of such birth, manager or superintendent of public or private institutions in which birth occurred, to notify the local registrar, within 10 days after the birth, of the fact of such birth having occurred. It shall then, in such case, be the duty of the local registrar to secure the necessary information and signature to make proper certificate of birth. Provided, That in cities, the certificate of birth shall be filed at less intervals than 10 days after birth, if so required by municipal ordinances or regulations now in force, or that may hereafter be enacted.

Sec. 38-215. CERTIFICATES OF BIRTH. The certificate of birth shall be filled out as per blanks for that purpose.

Sec. 38-223. * * * * *, any physician or midwife, in attendance upon a case of confinement, or any other person charged with responsibility for reporting births, in the order named in Sec. 38-214 who shall neglect or refuse to file a proper certificate of birth with the local registrar, within the time required by this article, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not less than \$10 nor more than \$300.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

2. The second step is to gather relevant information and data. This can be done through research, interviews, or other methods that provide insight into the problem.

3. The third step is to analyze the information and data collected. This involves identifying patterns, trends, and relationships that can help in understanding the problem.

4. The fourth step is to develop a solution or answer. This involves applying the analysis to the problem and creating a plan or strategy to address it.

5. The fifth step is to implement the solution or answer. This involves putting the plan or strategy into action and monitoring the results to ensure that the problem is solved.

6. The sixth step is to evaluate the solution or answer. This involves assessing the effectiveness of the solution and identifying any areas for improvement.

7. The seventh step is to communicate the solution or answer. This involves sharing the results of the analysis and the solution with the relevant stakeholders.

8. The eighth step is to document the solution or answer. This involves creating a record of the analysis and the solution for future reference.

9. The ninth step is to review the solution or answer. This involves periodically checking back on the solution to ensure that it remains effective and relevant.

10. The tenth step is to conclude the process. This involves summarizing the findings and the solution and providing a final report or conclusion.
